The following letter was referred to the Committee on Ways and Means: Gentlemen: I respectfully beg to call your attention to the provisions of Sections 118 and 1270 of the Revised Laws of 1905 in re collection of personal tax now due from the employes under the various departments of the County of

I believe that the board can greatly assist this bureau and facilitate the collection of these taxes by instructing the heads of each of the departments under the county to make some definite arrangements with the men under them whereby they will be able to meet this burden with the least inconvenience to themselves.

It is the policy of this bureau to of. fer the taxpayers every opportunity to pay these taxes before they become delinquent, and if my suggestion meets with your kind consideration and approval there will be no cause for ill-feeling or friction with the employee as would otherwise happen were I to resort to the stringent provisions of

the above sections of the law.

The system which has been generally adopted by the several plantations of this county for facilitating the collection of the personal taxes from their laborers can be readily understood by your honorable board from the enclosed coupons, which I am pleased to inform you have met with general satisfaction among the laborers of these plantations, and I believe that the same system can be inaugurated with Wooley, W. #### PETITIONS.

There was the usual flock of peti-tions, the most important perhaps of which read as follows: Honolulu, T. H., Jan. 21, 1907.
To the Honorable Board of Supervisors of the County of Oahu, Territory

We, the undersigned, residents, prop

erty owners and taxpayers, earnestly petition you to take such action as will insure the prompt macadamizing of Liliha street, between Judd and Wyllie streets, in the city of Honolulu.

You will find attached a rough dia-gram showing the street in question marked with blue pencil, and your attention is particularly called to the fact that all the surrounding, adjoining and adjacent streets on said diagram are now macadamized, thereby leaving this one block without having received any attention for some years, and in a condition, which is bound sooner or later to injure, or at least partially destroy those portions of macadamized road adjoining or adjacent to this block.

We therefore request that your im-mediate attention be given to this maiter, not only for the purpose of com-pleting the macadamizing of this en-tire section, but also for the purpose of protecting the work which has al-ready been done.

The diagram referred to shows that Wyllie, Judd and Nuuanu streets, Puu-nul avenue and the makal portion of Liliha street have all been m ed, but that Liliha from Judd to Wyllle street, has not been so treated The document was signed by G.
